

TRADESHIFT[®]

PEPPOL Access Point

PEPPOL is quickly becoming the universal standard for the exchange of electronic documents across Europe. Make sure you are connected.

Cost savings in the millions through PEPPOL

Today major organizations such as the National Health Services in the UK and the government of Norway are making it mandatory to trade through the PEPPOL (Pan European Public Procurement Online) network. Organizations without access will miss out on cost savings, efficiency improvements and business opportunities as more and more buying organizations make the move to PEPPOL and to e-enabled suppliers. The benefits from this kind of shift include process cost reductions of up to 75%, up to 40% reduction in support calls and up to 18% more invoices paid on time. PEPPOL enables organizations to use a universal set of electronic commerce standards through one network for document exchange and evaluation. This includes technical specifications for e-catalogs, e-orders, e-invoices, product descriptions and certification of organizations. PEPPOL also provides an open and secure network for document exchange and evaluation. By joining the network, organizations stand to benefit from improvements across their business.

The Key Benefits

Here are the key benefits that your organization will enjoy along with access to the PEPPOL network through Tradeshift.

Compliance

Become European compliant

Efficiency

Increase process efficiency

Connection

Connect once and reach customers

Accounts Receivable

- Flip orders to invoices, enter non-PO invoices or upload invoices via FTP
- Send invoices system-to-system for a fully automated process
- Deliver high-quality invoices with built-in order and invoice validation and enrichment features
- Access accurate invoice and payment status information quickly and at any time
- Improve cash forecasting
- Ensure compliance with audit logs and archives, and Capgemini's extensive knowledge of local VAT regulations

Sales and order desk

- Grow sales with existing customers
- Manage all customer catalog activity from one easy-to-use catalog dashboard
- Upload and publish catalogs in one single step
- Speed up your customer order process with end-to-end collaboration on order fulfillment
- Receive orders online, via email or system-to-system
- Ensure order tracking and completion in a timely manner
- Eliminate delays with rule-based order routing and automated notifications

Accounts Payable

- Reduce invoice processing costs by up to 90% via e-invoicing
- Accelerate the invoice processing cycle and get early payment discounts
- Reduce cost of invoice exceptions through pre-matching of orders and invoices at supplier's end
- Comply with tax and legislation using country-specific validations
- Connect through one channel to achieve global reach with flexible invoicing methods that accelerate supplier adoption
- Ensure high-quality invoices and satisfied suppliers through our experienced supplier activation team
- Quickly enable large numbers of suppliers with easy-to-use self-service tool

Procurement

- Increase contract compliance and reduce cost by channeling purchases to approved suppliers and pre-negotiated contracts
- Increase user adoption and process compliance thanks to rich and up-to-date content
- Increase productivity and automation in purchasing and accounts payable
- Enable invoice matching and automation of the accounts payable process with accurate purchase orders
- Quickly ramp-up suppliers and content
- Ensure fast supplier adoption via the streamlined Supplier Activation service
- Implement contracts efficiently using the powerful Content Workbench

ABOUT TRADESHIFT

Founded in 2010, Tradeshift is the world's largest business commerce platform that connects buyers and sellers. Tradeshift connects over 1.5 million companies across 190 countries, processes over half a trillion USD in transaction value yearly, and has a marketplace containing 28 million SKUs. It offers solutions for procure to pay, supplier engagement and financial services, and enables companies and partners to build custom or commercial apps on its business commerce platform. Tradeshift is headquartered in San Francisco, with offices in Copenhagen, New York, London, Paris, Suzhou, Chongqing, Tokyo, Munich, Frankfurt, Sydney, Bucharest, Oslo, and Stockholm.

We know that our customers benefit from these capabilities. We are confident that your organization whether on the buy or sell side would benefit from 40% fewer customer support calls. We are sure that reducing processing costs by up to 75% means we are onto something good.

We look forward to you joining us as a partner on Tradeshift.
